

Cut out and order the events of
Mog's Christmas Calamity

Mog has a bad dream

Her tail gets caught in the fairy lights

As a result, the cards are knocked over

The ball rolls and turns the oven on

Mog wakes up

She checks the oven and smoke pours out

She knocks into a pan and it crashes to the floor

She dials 999 and gets startled by the voice

She leaps onto the table and pulls everything off

Chestnuts fire out the pan and smash lots of objects

Mog jumps onto the fan and it spins around quickly

She falls onto the ironing board and grabs the grand father clock

The grandfather clock falls and break the fairy lights

All the needles fall off the tree

More chestnuts fire out, smashing objects

The oven opens and smoke fills the house

Mog runs outside pulling the fairy lights with her

The fire brigade arrives

Mog is named a hero
