

# Neil Armstrong

pilot  
engineer  
astronaut  
first person  
to walk on  
the moon!

Neil Armstrong was born  
on August 5th, 1930 in Ohio.  
**America**

He loved flying so much, he took flying lessons as a teenager and got his student flight certificate when he turned 16.

He got his flight certificate

— before he even got —

his driver's license!

He was so interested in flight that he wanted to learn how to design and build aircraft.

**Neil Armstrong flew 78 missions over Korea.**

He studied aerospace engineering for two years and then served in the United States Navy.

Neil Armstrong completed his college studies. After graduation he became a test pilot!

Project Gemini was NASA's 2nd astronaut spaceflight program.

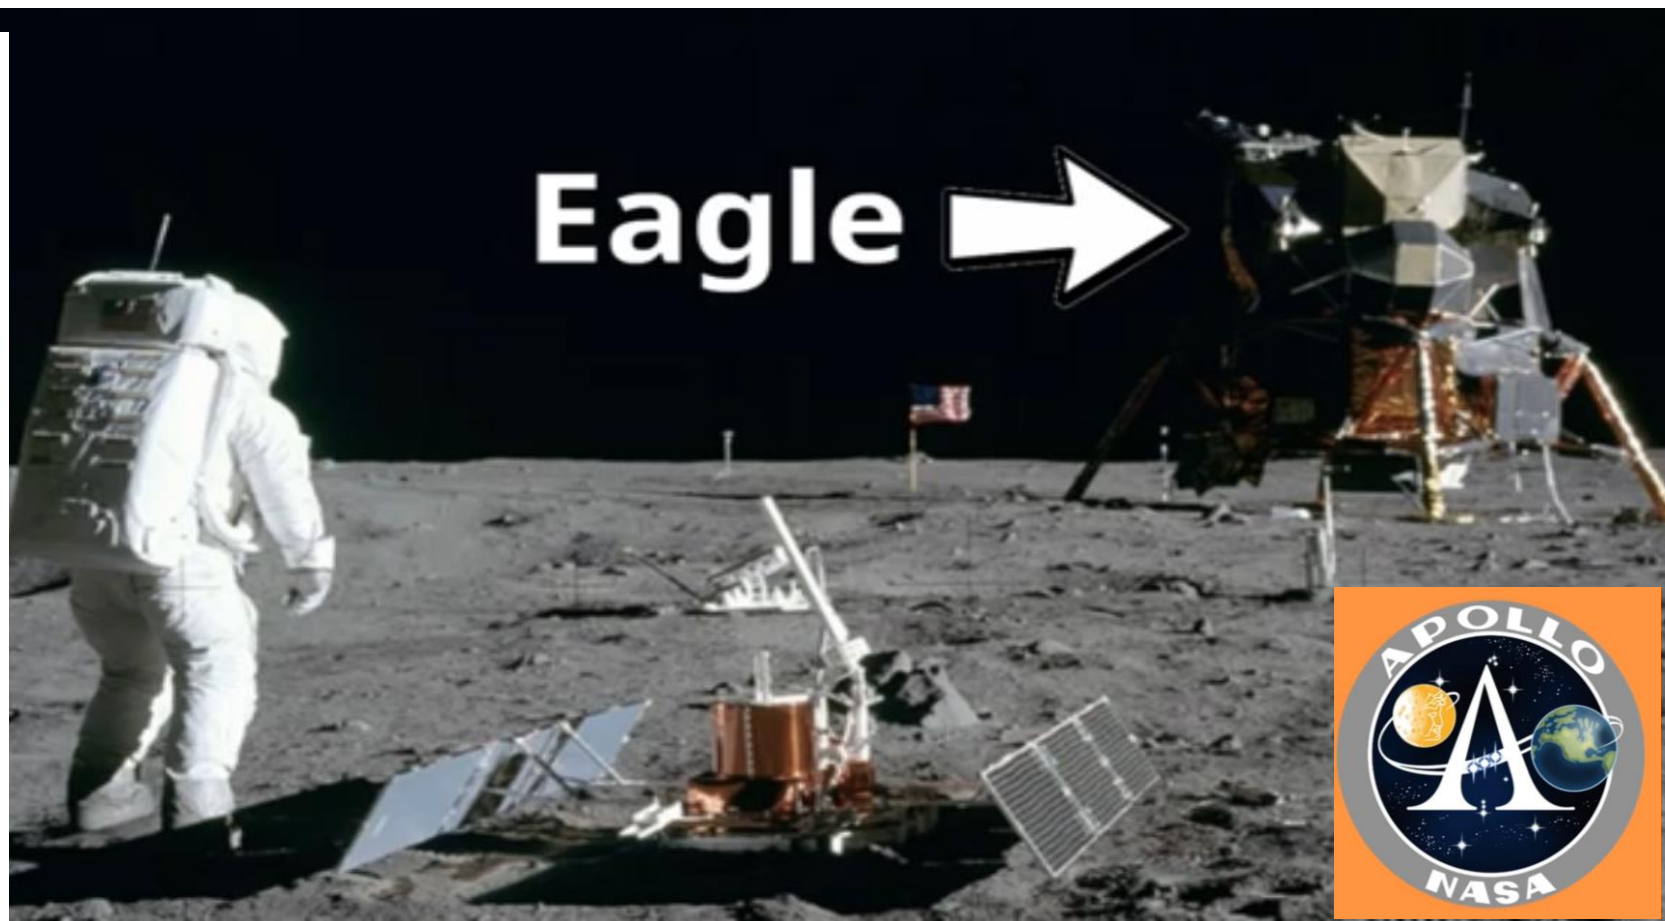

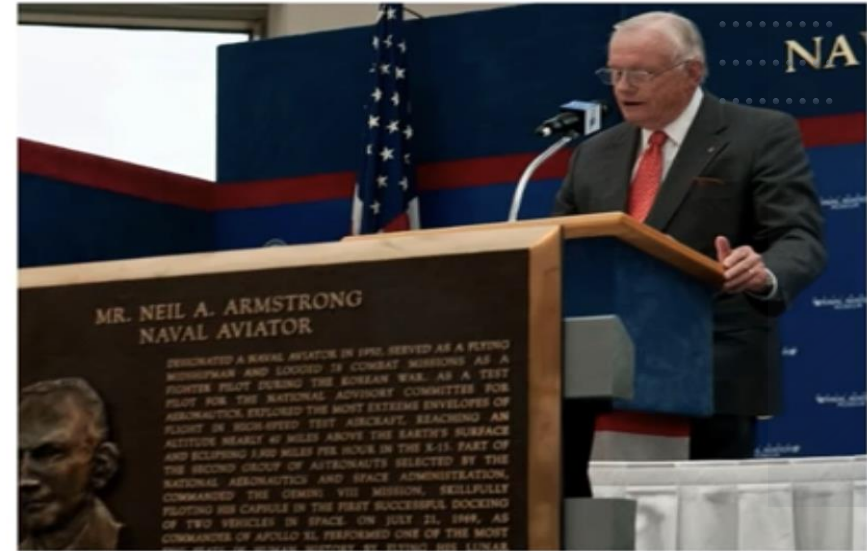

On July 20th, 1969,  
Eagle landed on the surface  
of the moon carrying

Neil Armstrong

and

Buzz Aldrin.

**Years later, in 2012,  
Neil Armstrong became sick  
and died at the age of 82.**
