Dear Wynter,

I am writing to tell you about this AMAZING book I have just read, called *Mr Nobody's Eyes*, by Micheal Morpurgo. It is the first time I have read a book by this author, so when I first looked at the pages, I thought it might be a bit boring. So you can imagine my surprise when I started reading the book, and I couldn't put it down. It was certain that this author was fantastic at writing books.

You might think that this book is a bit boring, like I did, if you start reading it, but trust me, once you get into the book, it feels like you are Harry, running away with the chimpanzee, (Ocky), and you meet some friendly gypsies. You get so caught up in the book, you REALLY can't put it down.

The first reason I think you should read this book, is because if you imagine being Harry, you can imagine really easily, how he feels, and what he is thinking about. You'll probably be thinking the same as I thought, when I was reading *Mr Nobody's Eyes*,

*"Is Harry going to take Ocky back to the circus? Is Bill, (Harry's stepfather) going to turn out good after all? Will Harry end up liking Georgie, ( his new baby brother)?" You will have so many questions in your head, that you will just want to read on, and find out ALL of the answers.*

*The second reason that I think you should read this book is because there are some scary bits, funny bits, and there are always exciting, breathtaking parts in Mr Nobody's Eyes, that fill you with exciting thoughts about Harry and Ocky.*

*The last reason that I think you should read this book, is that it has lots of interesting words that you might not have heard before, and you learn new things, like, what gypsies are. I REALLY hope that you decide to read this book, and I assure you, that you will have the most fun time of your life.*
