

21.10.20 Can I solve subtraction problems using number bonds?

Look at the sums below and add in the correct symbol. Think about whether it is + or - or = .

$4 \square 6 = 10$

$10 \square 2 = 8$

$5 \square 5 = 10$

$10 \square 6 = 4$

$2 \square 8 = 10$

$0 \square 10 = 10$

$10 \square 1 = 9$

$10 \square 7 = 3$

$10 = 5 + \square$

$6 \square 4 = 10$

$10 \square 0 + 10$

$10 \square 1 + 9$

$10 \square 8 + 2$

$5 + 5 \square 10$

Now write two adding sums and two subtraction sums of your own.
