

## **Parent/Carer Partnership**

Parents and carers are our pupils' first and most influential educators. We work in partnership with our parents/carers to enhance learning. Each term we create termly overviews. These include a summary of each topic, identifying links. Alongside this there is a letter from the teachers outlining specific activities or events for the parents/carers to prepare for with their children.

In order to further support parents/carers, we hold workshops to outline the curriculum and teaching strategies as well as suggestion for how parents/carers can help at home.

Homework is set on a weekly basis, with one return date for all tasks set. This includes daily reading, a maths activity, English activity and an activity linked to the topic or specific subject. This final activity may be a project that is completed over a few weeks.
