

Puffin and Moorhen Classes

Summer Term 2026

Maths

We will be working with fractions, statistics, position and direction as well as reading time.

Literacy

Our work in Literacy will link to our unit of pirates.

We will be exploring a book called Mungo and the Picture Book Pirates. We will also look at a different book called The Bog Baby.

Computing

We are Zoologists – collecting data using databases and tables.

We are photographers – finding out how to edit and enhance photos

PE

In PE, we will be working on our fitness and dance, whilst also learning how to play striking and fielding games, as well as developing our skills in outdoor athletics.

Geography

We will be investigating the question what it is like to live by the coast? We will explore the different seas around the UK. Identify features of the coast and through fieldwork recognise how the local coast is used.

Music

We will learn how to play the recorder and practise our songs for the Summer Production!

History

We will look at the history of pirates, especially historical figures such as Blackbeard and Grace O'Malley.

Science

We will explore variation and classification, while looking at a range of plants and animals. We will investigate habitats and simple food chains.

PSHE

Our two units are Relationships and Changing Me. We will learn about ourselves and our bodies and how they change over time.

RE

In RE, we will explore the question 'What is the good news Jesus brings?' by immersing ourselves in the Gospels.

Art

In Art, we will be using the Batik technique to create a pirate inspired textile image.

DT

Once again, our topic will link to our DT project. We are going to be making pneumatic shark toys.
