

Maths

We will be working on a wide range of skills including place value, written calculations involving the 4 rules, interpreting graphs and tables.

Music

We will compose and perform music, inspired by the Classic Rock song *Livin' on a Prayer*.

RE

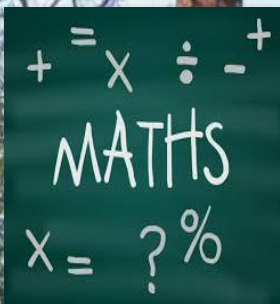

The children will gain an insight looking through various lenses such as Philosophy and Theology.

PE

We will be developing our netball and hockey skills, as well as exploring ways to improve our fitness levels.

Literacy

We will be studying narrative stories, how to write very clear instructions and poetry.

FINDING FLATFORD

Woodpecker and Sparrowhawk Autumn Term 2026

Computing

We will become web developers to understand how the world wide web works and then make our own web sites.

Science

Our focus will initially be on scientists and how they work as we become forensic scientists to solve a crime, before focussing on forces after half term.

PSHE

We will study how we can face new challenges confidently and make a positive contribution. We will also compare our lives with those around the world.

DT

We will be exploring what materials and components are used to make water wheels, finishing off this topic by making working waterwheels.

Art

We will be focusing on Constable and landscape paintings of Flatford, creating our own interpretations using perspective of local scenes.

History / Geography
We will be researching the changing land use and history of Flatford and will compare this with Shenfield.
